Forests and their management: Week 12
The correct answer is in **bold**.

| | | |
|---|---|---|
| **12** | 1 | The climax near Tindni village is being controlled by disturbance by cattle. This is an example of<br>a. climatic climax<br>b. edaphic climax<br>c. **disclimax**<br>d. catastrophic climax |
| **12** | 2 | "Science of relationships between organisms and their environments" is the definition of:<br>a. conservation<br>b. preservation<br>c. environmentalism<br>d. **ecology** |
| **12** | 3 | "allowing some places and some creatures to exist without significant human interference" is a definition of<br>a. conservation<br>b. **preservation**<br>c. environmentalism<br>d. all of these |
| **12** | 4 | For absolute form factor, the reference for the base of the cylinder is<br>a. **base of the tree**<br>b. breast height<br>c. 10% of tree height<br>d. 20% of tree height |
| **12** | 5 | Which of these has the highest organic matter content?<br>a. **peaty soil**<br>b. alluvial soil<br>c. saline soil<br>d. red and yellow soil |
| **12** | 6 | For a tree with dbh = 45.6 cm, height = 27 m and total stem volume of 1.78 cum, the artificial form factor for the tree is:<br>a. 0.1<br>b. 0.2<br>c. 0.3<br>d. **0.4** |
| **12** | 7 | "Plant community, predominantly comprised of trees and other woody vegetation, usually with a closed canopy" is<br>a. silvicultural definition of forests<br>b. FAO definition of forests<br>c. legal definition of forests<br>d. **ecological definition of forests** |
| **12** | 8 | The term laterite soil is derived from Latin *later* which means<br>a. red<br>b. **brick**<br>c. fertile<br>d. infertile |
| **12** | 9 | Choose the correct statement:<br>a. **For a non-circular cross-section, girth tape over-estimates the sectional area.**<br>b. For a non-circular cross-section, girth tape under-estimates the sectional area.<br>c. For a non-circular cross-section, girth tape correctly estimates the sectional area.<br>d. None of these is a correct statement. |
| **12** | 10 | Vertical arrangement of soil horizons is called<br>a. soil texture<br>b. soil structure<br>c. **soil profile**<br>d. soil science |
